The Ministry of Social Development (MSD) and Inland Revenue have proposed an amendment to their existing Approved Information Sharing Agreement. This amendment includes removing the requirement for MSD to provide 10 working days' notice before and adverse action. As part of this proposed amendment MSD and Inland Revenue are required to consult with groups impacted by this change.

Some parts of this information release would not be appropriate to release and, if requested, would be withheld under the Official Information Act 1982 (the Act). Where this is the case, the relevant sections of the Act that would apply have been identified. Where information has been withheld, no public interest has been identified that would outweigh the reasons for withholding it. This is the key to the redaction codes used for this release:

Please note - the Privacy Impact Assessment was created to support engagement with the Office of the Privacy Commissioner early in the project for removing the 10 working days' notice from the IR/MSD Approved Information Sharing Agreement. The version presented was based on the information known at the time, that may no longer be relevant. The intention is to revise the assessment over the course of the project, the next update is to be completed following the public consultation for the AISA amendment to further support engagement with the OPC at the beginning of September and guide the CSPO project.
