APPENDIX B

Table Two: The number of Overseas Pensions paid into the Special Banking Option for clients on New Zealand Superannuation as at the end of August 2022, broken down by country.

Country	Number of Clients	Annualised Amount
United Kingdom	49,671	\$223,065,611.50
Australia	16,710	\$90,646,296.88
the Netherlands	3,501	\$19,322,771.66

Guernsey	108	\$681,836.48

Special Banking Option:

- The Special Banking Option allows a client's overseas benefit or pension to be paid directly into a special Westpac bank account in New Zealand.
- This account is held in the client's name but only accessible by the Ministry of Social Development.
- The Special Banking Option is currently only available to those who receive a benefit or pensions from the United Kingdom, The Netherlands, Australia, Jersey, Guernsey and the Republic of Ireland.

Notes for both tables:

- Only clients who receive New Zealand Superannuation have been included in this report.
- The country stated is where the Overseas Pension has been paid from.
- The annualised amount is in New Zealand dollars. It is an approximation of the annual value of overseas pensions based on amounts and exchange rates as at time of report.
- Figures are current as at the time of reporting. However, these may be subject to change due to new historical information being recorded by the Ministry of Social Development.
- Post-June 2016 numbers and deductions are calculated using an improved methodology which excludes some Overseas Pension records that are in the system but not deducted from the recipients New Zealand Superannuation.
- To protect confidentiality the Ministry uses processes to make it difficult to identify an individual person or entity from published data.
- These data tables have had random rounding to base three applied to all cell counts in the table.
- A value of one or two may be rounded to zero or three.
- The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.
- The published counts will never differ by more than two counts.

- In certain circumstances low numbers may potentially lead to individuals being identified.
- Due to these privacy concerns, numbers for some categories of clients have been suppressed or aggregated.
- Secondary suppression rules have also been applied when required.
- Suppressed numbers have been replaced by an 'S'.
